

## Highlights

- Fourth Year Computing Science (3.6 GPA)
- Passionate About Machine Learning and Artificial Intelligence
- Knowledgeable in Many Computing Science Technologies

## About me

My name is Musaed. I am 22 years old. I am currently in the fourth year of the Computing Science program at University of Alberta, with a 3.6 GPA. Beside academics, I enjoy many habits in life, including horse riding and swimming. My passion for horse riding started when I was 12 years old. I won several competitions in horse jumping and it has taught me persistence. I also enjoy swimming, especially with friends.

## Professional History

I have had a 3 month internship at a global, multinational company during the summer of 2018, where I worked for the human

resources department to collect, analyze, and visualize so that it can be presented.

**My**

**Skills**

I have knowledge in many areas of Computing Science, including machine learning, artificial intelligence, human-computer interaction, software engineering, database management, information retrieval over non structured data. Particularly passionate about machine learning and artificial intelligence

Technical Skills:

**SPARQL; Prolog; Lisp;  
Java; C; Python; HTML;  
CSS; JavaScript**
